۲

### the Craftsman Cottage

Classic Craftsman styling and the friendly "big ol' front porch" make this home a true country charmer. A nice open floor plan with gathering areas on both levels make this a wonderful plan for family get togethers and for entertaining. The rear facing living area can offer access to a large deck or patio.

### the Highspire II and Herron II Chalets

Lake & Lodge

COLLECTION

10

These homes are updated versions of our most popular Cape Chalet plans. Each home features generously sized and open gathering spaces, along with a dramatic, two-story vaulted area. The upper level can be finished to include an additional bedroom, full bath and an overlooking loft. The Herron II includes an entry door from the "driveway end" which provides added flexibility on many home sites.

#### About Ritz-Craft

Founded in 1954, and still family owned and operated, Ritz-Craft specializes in system-built homes that are custom built off site in one of five climate controlled facilities. These components are then transported to the site, installed on the foundation and completed by a local building partner.

Ritz-Craft home plans offer a wide variety and are designed to embrace each region's architecture, while offering many aesthetically pleasing and functional features. Building your new home with Ritz-Craft's custom designed modules offers many advantages over conventional, stick-by-stick, site assembly. Our precision construction methods take place indoors in well lighted, climate controlled and efficient workstations that allow high quality and high efficiency. In fact, our quality assurance process includes code compliance inspections by a state licensed, third party agency and over twenty-five key inspection checkpoints monitored by our in-house Quality Assurance Team. Ritz-Craft also utilizes many Green Friendly materials and processes to save energy, recycle material and to manage waste in an environmentally responsible manner.

When you choose Ritz-Craft, you're selecting an experienced company with a commitment to quality and to the future. We have grown from a modest one-plant operation into a thriving enterprise with over one million square feet of climate controlled production space, in five modern highly mechanized plants. Some people ask if our homes are built as well as a site-built home....

and our proud reply is, "yes, --- as well, and in many respects, better." We say that with confidence, knowing our process simply cannot be matched with in-field home building methods.

۲

We're proud of our custom built single story, Cape Cod style, and two story homes and we sincerely thank you for considering Ritz-Craft for your next home.

Paul D. John, President/CEO Eric John, Vice President
